Current position

2010- *Researcher*, Dipartimento di Fisica e Geologia, Perugia

Areas of specialization

Phenomenology and theory of particle physics.

Education

1997 Master degree in Physics, Dipartimento di Fisica, Università di Perugia (grade 110/110 cum laude)
2001 PhD in Physics, Dipartimento di Fisica, Università di Perugia

Grants

1996-97 INFN scholarship for undergraduate students at Laboratori Nazionali di Frascati
2002-04 Research grant (assegno di ricerca) Laboratori Nazionali di Frascati and Università di Perugia
2005-07 Research grant (assegno di ricerca) Laboratori Nazionali di Frascati
2007-10 "Junior Grant" Centro Enrico Fermi, Roma

Talks and Publications

Author of **36** invited talks and coauthor of more than **550 papers**.

Citations Summary generated by <https://inspirehep.net/> on February 22nd 2017
717 papers found, 713 of them citeable (published or arXiv)

	Citeable papers	Published only
Number of papers analysed:	713	571
Number of citations:	27438	24955
Citations per paper (average):	38.5	43.7
h_{HEP} index ¹	82	80

Memberships

2005-06 FOCUS experiment at Fermilab, Chicago.
2005-12 BABAR experiment at SLAC, Stanford.
2009- BESIII experiment at IHEP, Beijing.

¹J. E. Hirsch, Proc. Nat. Acad. Sci. **46** (2005) 16569 doi:10.1073/pnas.0507655102 [physics/0508025].

Research activity

- Analytic models for α_s and applications.
- Analytic parameterizations and continuation techniques for baryon electromagnetic form factors and light meson transition form factors.
- Radiative corrections on hadron production processes via electro-positron annihilation.
- Models for proton-proton and proton-antiproton elastic cross section at LHC energies.
- Low-energy hadron spectroscopy.

Teaching

- 2010-18 Owner of the course "Metodi Matematici per la Fisica", "Laurea triennale in Fisica" at the Department of Physics and Geology, Perugia.
- 2016- Owner of the course "Dinamica del Modello Standard", "Laurea magistrale in Fisica" at the Department of Physics and Geology, Perugia.

Outreach Activities

- 2011-12 Organiser of the exhibit "Estremo - Le macchine della conoscenza" at the "Museo Archeologico Nazionale dell'Umbria", Perugia.
- 2012-16 Local organiser of the "International Masterclasses - hands on particle physics" (<http://physicsmasterclasses.org/index.php>), lessons and exercises for high-school students.
- 2012-16 Seminars of particle physics in high-schools, "The Universe in 10^{-19} meters" and "Light, quick and elusive, Neutrinos".
- 2015 Organizer of the regional project "UNIDEE, Idee per un futuro universitario", orientation for high-school students.
- 2015- "Piano Lauree Scientifiche" (<http://www.progettolaureescientifiche.eu/>), seminars and labs for high-school students.

Conference organisation

- "Hadron07", Frascati, 8-13 October, 2007 - LOC and editorial board member and convener.
- "PHIPSI08", Frascati, 7-10 April, 2008 - LOC member.
- "LNF Spring School", Frascati, 12-16 May, 2008 - LOC member.
- "IFAE 2011", Perugia, 27-29 April, 2011 - LOC and editorial board member and convener.
- "Scattering and annihilation electromagnetic processes", ECT* Trento, 18-22 February 2013 - Coordinator.

Languages

French: intermediate.

English: written and spoken.

Italian: mother tongue.
